# Kotor

## Ultrafiltration Water Purifier

The Kotor comes with a UF membrane made of CPVC, with the aperture reaching 0.1 micron, so that it can remove visible & small particles of impurities and bacteria, etc. This 3-stage purification with UF membrane is easy to install and operate. There is no waste water generated, and the system will not remove minerals. The filter head with a built-in valve which will automatically shut off the water when the filter is being changed. The system can be mounted under a sink. No tank is required.

2 L/min
Flow Rate

Lead-Free
Faucet

No Electricity
Required

Against E. coli
Reaches 99.99%

### Tankless & Compact

Compact design allows it to be installed under the sink. Taking up less space and purifying water as it is needed.

### 3-Stage Ultrafiltration

Consists of folded PP, folded UF membrane and activated carbon with antibacterial technology, which effectively reduces particles down to 0.1 micron, bacteria, residual chlorine, and against E. coli reaches 99.99%, providing good-tasting water while retaining beneficial minerals.

**Lead-Free Stainless Steel Faucet**

Strong corrosion resistance. The purified water will remain clean.

**Fast Flow Rate**

Fast and stable water supply, flow rate up to 2 L/min.

**Quick Filter-Change**

The Twist-lock design allows easy filter replacements.

# Specifications

| Model | W-J2622-UFB120 |
|---|---|
| Flow Rate | 120 L/h |
| Filtration Precision | 0.1 Micron |
| Inlet Water Temperature | 5-38°C |
| Inlet Water Pressure | 100-200 kPa |
| Filter & Service Life* | FPP Filter, 3 months |
| | CFII Composite filter, 12 months |
| Faucet Included | Lead-free stainless steel faucet |
| Dimensions (mm) | W 263 x D 123 x H 340 |
| Weight | 2.9 Kg |
| QTY/ Container | 20 GP: 840 pcs<br>40 GP: 1760 pcs<br>40 HQ: 1760 pcs |

* Service life will vary according to flow rate, influent line pressure and local water conditions.
